Role Description

People-led Policy Panel on Social Care Support, Health and Integration.

This is information about volunteering with the People-led Policy Panel.

To talk about adult social care support ideas from the Scottish Government, and to suggest changes and solutions.

Funded by the Scottish Government

We are recruiting 50 people from across Scotland who need to use adult social care support.

20 of these people who use adult social care support will form a Core Group to meet with the Scottish Government.

What change do we hope to see?

1. People who use adult social care support have a say on the design of adult social care support.

2. Decision makers have a good way to hear views on adult social care support.

3. Good changes can be seen to be made.

4. Everyone can agree on what works well.

5. The people taking part learn new things and feel good about giving their views and ideas.

6. New ways of making decisions are worked out.

We are looking for a mix of people living in Scotland.
